

YOUR - STORY

The first step in learning about HISTORY, is to learn about your own story. Use this family tree template to find out about YOUR-STORY

1 Fill in the family tree template, starting with you.

Fill in as many names as you know - your parents, grandparents and great grandparents - in the family tree template on the next page.

2 Talk to older members of your family

Ask questions of your parents or grandparents about who is in your family tree, if you can. Even if they don't live close by, email or video chat them.

3 Find some photographs

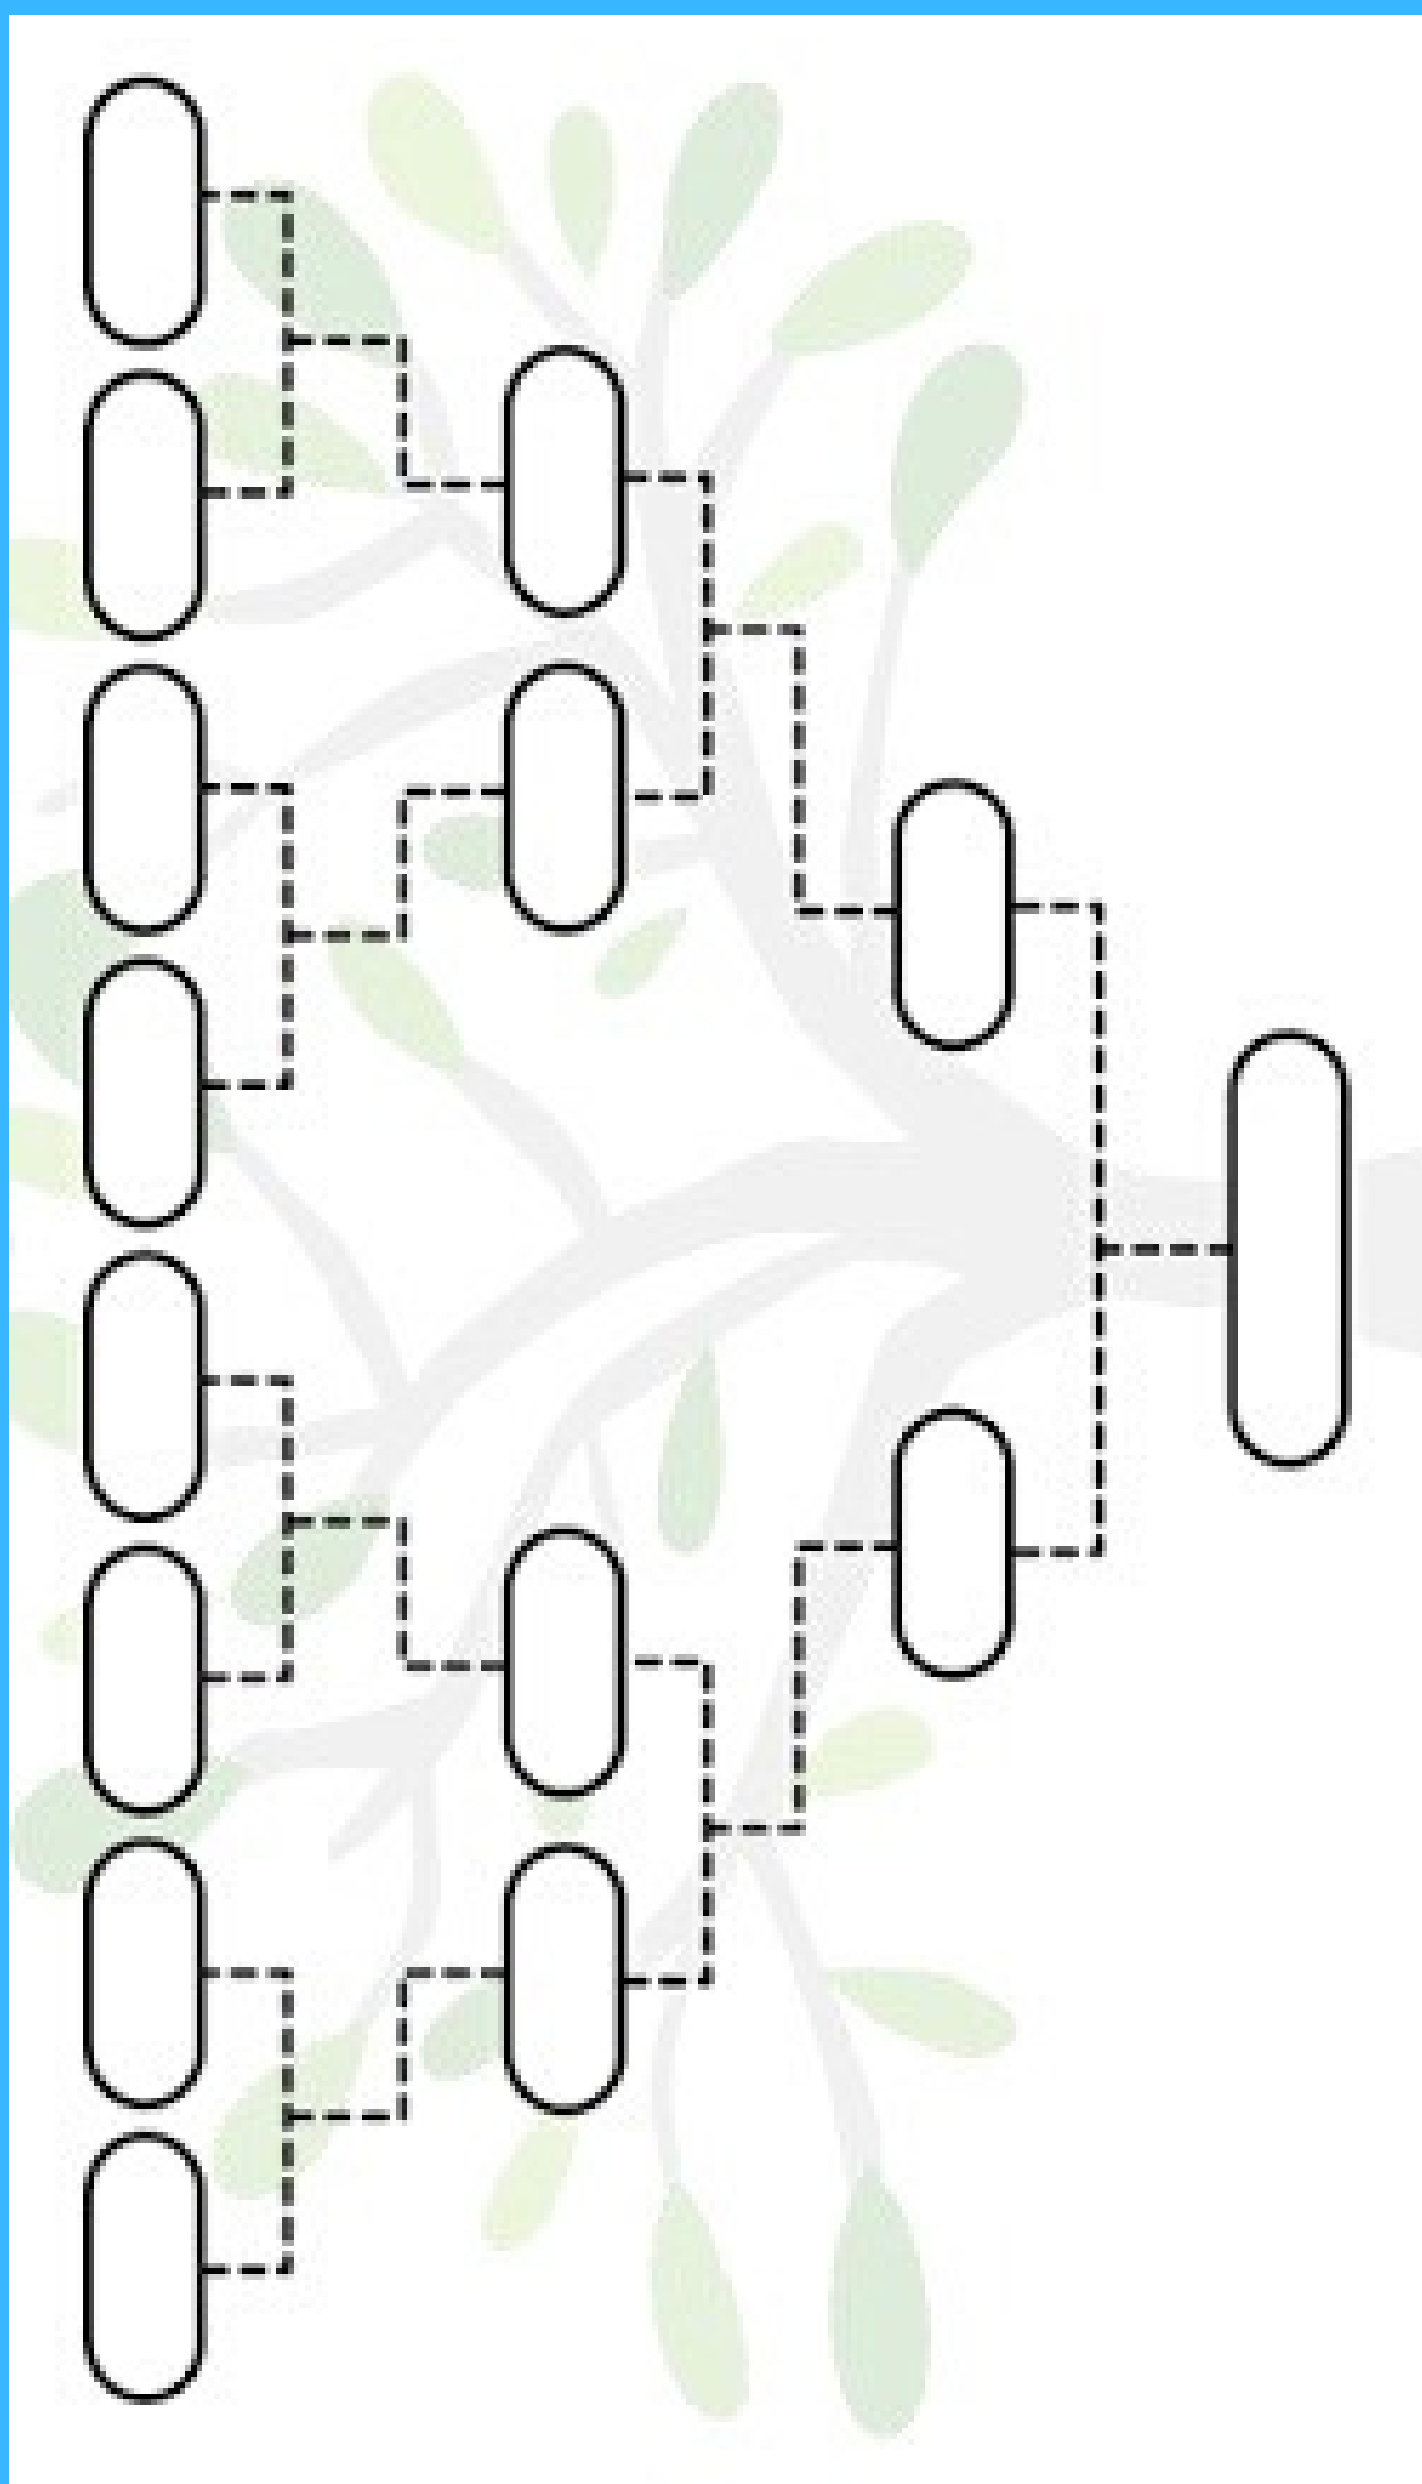

Have a look for some photographs to match to the names. This makes your tree personal, and helps you connect the names to real people.

4 Add some stories

History is all about stories. Find out some interesting or funny stories to record about your family and fill them in on the last page. Copy the page to add more stories.

YOUR FAMILY TREE TEMPLATE

STORIES

Here is a space to note down some stories about members of your family tree. Be sure to note who the story is about.
